

Barracuda ArchiveOne

Release Notes

Version 7.1

August 2015

Introduction

These release notes are for ArchiveOne Version 7.1.

They detail the changes included in this version, how to install or upgrade to this version, and the licensing & version assurance implications.

Installation

The product is supplied as a full standard installation package.

See the Customer Support website at support.c2c.com for information on how to install this version, or how to upgrade from previous versions. Upgrades are supported from the following product versions:

- ArchiveOne Enterprise Version 7.0 SP1

- ArchiveOne Enterprise Version 7.0

- ArchiveOne Enterprise Version 6.6

You will need to run the Pre-Installation Setup process prior to starting any install or upgrade.

Integration with a Barracuda Message Archiver appliance requires Message Archiver firmware version 4.2 or above.

Licensing & Version Assurance

This is a full release and as such is only available to customers with a valid Support & Version Assurance (SVA) contract.

Customers upgrading from earlier product versions may need to obtain a replacement license from Barracuda in order to access all current product features.

Support

Support on all Barracuda products can be obtained by customers with a valid Support and Version Assurance contract, from:

New Features

Archiving to the Barracuda Message Archiver *

ArchiveOne can now archive email data directly to a Barracuda Message Archiver appliance or to the Barracuda Cloud Archiving Service.

It can also synchronize the Exchange folder structure for individual mailboxes with a Barracuda Message Archiver appliance or with the Barracuda Cloud Archiving Service.

Advanced Discovery from the Barracuda Message Archiver *

ArchiveOne Advanced Discovery is now able to search and capture data which has previously been archived within a Barracuda Message Archiver appliance or within the Barracuda Cloud Archiving Service.

** Requires Barracuda Message Archiver firmware version 4.2 or above.*

Enhancements

Extended Platform Support

ArchiveOne Client components are now supported on Windows 10 and the Edge web browser.

Disclaimer of Liability

While every precaution has been taken in the preparation of this document, Barracuda assumes no responsibility for errors or omissions, or for damages resulting from the use of the information contained herein.
